

# UE19CS204 – Web Technologies Mini Project

Project Title - Ease The News

Section - A

Abhijnan Bajpai - PES1UG19CS014

Abhijnya Bhat -PES1UG19CS015

Anisha Ghosh - PES1UG19CS067

GITHUB Link - <https://github.com/Ab-34/Ease-the-news>

# Abstract

This is a user-friendly, personalized news web portal for providing a seamless surfing experience.

## **Functionalities:**

- Minimalist UI
- News based on categories: eg. Sports, politics and the like.
- A trending tab to keep up with the hottest news around the world
- User account: To subscribe to our newsletter

# Technologies Used

- Bootstrap
- Material UI
- React elements
- Axios
- Express
- Mongoose
- News API: from [newsapi.org](https://newsapi.org)

# Member Contributions

- Front-end:
  - Abhijnan brought in the articles from newsAPI and added news carousels.
  - Abhijnya worked on the Navbar and it's functionalities.
  - Anisha worked on the landing page and it's functionalities.
- All three members collectively worked on back-end and multiple pages styling & functionality.
